

# EXPERIENCING ARCHITECTURE

## SUMMER DESIGN STUDIO FOR HIGH SCHOOL STUDENTS

July 8-August 1, 2024

### During the four-week program, you will:

- develop foundational skills for architecture, including sketching, drawing, and model making;
- work on your own design projects using Pitt's architecture studios and makerspaces; and
- learn how architects and related professionals work through office tours, construction site visits, and walking tours of notable buildings in and around the city.

**The summer design studio is open to all students in grades 9-12.** To be considered, you must submit a complete [online application](#), including an essay stating what you hope to gain from participating, and at least one letter of recommendation. Applications are due April 5, 2024.
